My Saving Water Game Plan Worksheet

Instructions

Part 1: Brainstorm Ideas

Use this chart and the chart on the next page to brainstorm ideas for how you can save water in each of the five categories you've learned about.

Ideas for Saving Water Indoors	Ideas for Saving Water Outdoors	Ideas for Saving Water via My Diet

NAME: _____ DATE: _____ CLASS: _____

My Water Saving Game Plan Worksheet, continued

Ideas for Saving Water by Saving Electricity	Ideas for Changing Saving Water via My Shopping Habits

If you need ideas, do research! This website is a good starting point: <https://www.watercalculator.org/intro/>.

Part 2: Identify Doable Ideas in Each Category

1. When you are finished brainstorming, go through all the ideas you listed on this page and the previous page, and put a star next to ideas that seem the most doable for you. Try to identify at least one from each of the five categories.
2. List all of those ideas in the personal action plan on the next page. Take that page home and use it to remind yourself of your commitment to a sustainable future!
